DOMANDA DI

# BREVETTO

NS. RIF	: E053506
STATO	: USA
TITOLO	: SYSTEM FOR BACKING UP AND RESTORING THE FUNCTIONALITIES OF AN INFORMATION TECHNOLOGY SYSTEM
DATA DOMANDA	: 14 gennaio 2013
NR. DOMANDA	: 13/740,360
DATA PRIORITA'	: 13 gennaio 2012
TITOLARE	: RENZI ALBERTO

## LIMITI DI RESPONSABILITA'

La società sopra indicata dedicherà all'incarico affidato la massima cura e competenza; ciò premesso:

1. La Società ha reso edotto il richiedente che il brevetto è valido solo se esso possiede novità universale (non deve essere avvenuta nessuna divulgazione anche da parte dello stesso richiedente in alcuna parte del mondo). Inoltre di fronte alle anteriorità più pertinenti, l'invenzione deve soddisfare il requisito di attività inventiva (cioè l'invenzione non è una banalità).
2. La Società ricorre per i lavori all'estero a corrispondenti esteri, come tutte le società operanti in Italia, per altre attività, quali ricerche essa ricorre ad ausiliari esterni (come banche dati, ecc.). La Società si assume la responsabilità (per tutti i lavori in cui l'intervento di terzi sia necessario) di ricorrere a persone, uffici, società od organismi che godono di elevata reputazione, ad esempio comprovata dalla loro iscrizione in albi ufficiali, ecc. E' ovvio che la responsabilità non può estendersi che a tale scelta oculata, e non già ad errori od omissioni imputabili a terzi (cioè non alla Società).
3. La Società offre di inviare avvisi di scadenza di termini (in particolare tasse di rinnovo annuali o pluriennali) in via automatica, a titolo di servizio gratuito e comunque non come obbligo contrattuale. Pertanto non si assumono responsabilità per errori od omissioni. Il richiedente può sempre disdire in ogni momento il servizio relativo al pagamento delle tasse di rinnovo.
4. I rapporti di ricerca sono effettuati con la massima cura e diligenza ed essi ricavano dati da fonti ufficiali, ufficiosi o da banche dati, ma non dalla consultazione di operazioni curate dalla società stessa, e ciò per ottemperanza alla legge sulla privacy. Non si assumono responsabilità per errori o omissioni che in tali rapporti possono intervenire.
5. Non si assumono responsabilità per le eventuali limitazioni o modifiche introdotte nelle rivendicazioni o liste di prodotti, che non siano contestate per iscritto dal richiedente entro 30 giorni da quando siano pervenuti al medesimo copie di tali rivendicazioni o liste rielaborate.
6. I documenti, i testi brevettuali, le liste merceologiche ed in genere tutta la documentazione relativa alle pratiche estere è controllata nella loro versione inglese. Qualora la lingua dello Stato sia diversa dall'inglese, il controllo viene fatto sulla base del rapporto in inglese fornito dal corrispondente estero o dagli ausiliari esterni (banche dati, ecc) a cui è stata affidata l'attività. Non si assumono quindi responsabilità per errori od omissioni imputabili a terzi in particolare a seguito di traduzioni nella lingua locale.
7. I pareri espressi da membri della Società sui diversi problemi riflettono opinioni personali, sulla base di uno studio tecnico e legale competente e qualificato dei problemi stessi. Peraltro, nessun parere di nessun professionista è assistito da garanzia di accoglimento da parte di terzi (ad esempio di una controparte) o di Pubbliche Amministrazioni o Autorità Giudiziarie.
8. Foro competente è il Foro di Milano. La legge applicabile è quella italiana.

Date Mailed: 02/11/2013

Receipt is acknowledged of this non-provisional patent application. The application will be taken up for examination in due course. Applicant will be notified as to the results of the examination. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please submit a written request for a Filing Receipt Correction. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections

**Title**

SYSTEM FOR BACKING UP AND RESTORING THE FUNCTIONALITIES OF AN INFORMATION TECHNOLOGY SYSTEM

**Preliminary Class**

713

**PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES**

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

**LICENSE FOR FOREIGN FILING UNDER****Title 35, United States Code, Section 184****Title 37, Code of Federal Regulations, 5.11 & 5.15****GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where

the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

#### **NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

---

### ***SelectUSA***

The United States represents the largest, most dynamic marketplace in the world and is an unparalleled location for business investment, innovation, and commercialization of new technologies. The U.S. offers tremendous resources and advantages for those who invest and manufacture goods here. Through SelectUSA, our nation works to promote and facilitate business investment. SelectUSA provides information assistance to the international investor community; serves as an ombudsman for existing and potential investors; advocates on behalf of U.S. cities, states, and regions competing for global investment; and counsels U.S. economic development organizations on investment attraction best practices. To learn more about why the United States is the best country in the world to develop technology, manufacture products, deliver services, and grow your business, visit <http://www.SelectUSA.gov> or call +1-202-482-6800.
